DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey D. Sanok on July 27, 2007.

The application has been amended as follows: please enter the limitation of "from a first bus user to a second bus user" in replacement of the first occurrences of "between first and second bus users" in claim 1 lines 5.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The examiner deem claims 1-10 as novel when read as a whole for the limitations diagnosing the message transmission, operating in diagnostic operating mode that differs from a normal operation mode and includes the acts of:

Requesting by the diagnostic device uninvolved in the message transmission during the normal operation mode, the second bus user to output on the communication bus the message transmission conducted from a first bus user to a second bus user.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
